EDUCATION BACKGROUND

Academia de Código

JUNIOR FULLSTACK DEVELOPER

- A 14-Week intensive and immersive FullStack Programming Bootcamp

Universidade do Porto

MULTIMEDIA MASTER (unfinished)

Universidade Federal Fluminense

BACHELOR'S DEGREE IN PEDAGOGY

As a teacher, with the future of many children in my hands and working in an environment that is anything but boring or predictable like a school, I learned to use creativity to solve complex problem scenarios and that nothing can be achieved without teamwork.

After an 8-month sabbatical in 19 countries in Asia and Europe, I decided to change careers and study on my own. Making the Bootcamp was a huge step on this path, which continues to be followed, with study, commitment and willingness to overcome any future challenge.

PROJECTS

Moon Votes DEVELOPER

- 48h challenge: developed a network game: client and server sides. (*Java, Simple Graphic, Apache Ant*)
